

CALL FOR PAPERS

Expert Systems with Applications

Special Issue Theme -
**“Intelligent Computational Techniques in Science,
Engineering, and Business”**

Special Issue Scope:

The coverage of this special issue is parallel to the topics that are covered in the **1st International Symposium on Computing in Science and Engineering**, provided that the papers have an "intelligent system" perspective incorporated in their research methodology.

Tentative Schedule:

June 10	Invitation to authors of the selected papers (presented at the 1st International Symposium on Computing in Science and Engineering, organized by the Faculty of Engineering, Gediz University, June 3-5, 2010, in Kusadasi, Turkey.
August 15	Deadline for full paper submission. These submissions should follow the Expert Systems with Application's author guidelines (elsevier.com/wps/find/journaldescription.cws_home/939/authorinstructions)
October 15	End of the first round reviews
December 1	End of the second round reviews
January 15	Final submission for the accepted papers

Inquiries should be sent to the guest editors:

Dursun Delen

Department of Management Science and Information Systems
Oklahoma State University, USA.
dursun.delen@okstate.edu

Aziz Kolkiran

aziz.kolkiran@gediz.edu.tr
Department of Electrical and Electronics Engineering,
Gediz University, Turkey

Asil Oztekin

asil.oztekin@okstate.edu
School of Industrial Engineering and Management,
Oklahoma State University, USA
